

Helix Dynamics Remote Work Policy

1. Purpose

This policy defines who can work remotely, how often, and the expectations that apply while working outside a Helix Dynamics office.

2. Eligibility

Employees become eligible for remote work after completing the 90-day introductory period and must have a performance rating of 'Meets Expectations' or higher. Roles that require on-site equipment, such as lab technicians and facilities staff, are not eligible.

3. Hybrid Schedule

Eligible employees may work remotely up to three days per week. Tuesday and Wednesday are anchor days on which all hybrid employees are expected in the office. The remote days must be agreed with the manager and recorded in the HR system.

4. Fully Remote Roles

Fully remote arrangements require approval from the department Vice President and People Operations. Fully remote employees must travel to their home office for the quarterly planning week, and travel costs for that week are covered by the company.

5. Work From Abroad

Employees may work from outside the country for up to 20 working days per calendar year with at least two weeks' notice to their manager and People Operations. Working from abroad for longer requires a tax and legal review.

6. Home Office Requirements

Remote employees must have a private workspace and an internet connection of at least 50 Mbps download. Company data may only be accessed over the corporate VPN. Public Wi-Fi may not be used without the VPN.
